Bloggs Joe — 14:05
John, how are you getting on with review...

Jane Jones — 14:05
I need your help with that other document.

Proff. Martin Scott — 14:04
Hi John. How are you?

Example Bubble — 09:59

Emily — 10 Mar, 15:20

Bloggs Joe
John, how are you getting on with the document (attached)?
Hi, it is in final review

- iCloud Drive
- My Rainbow sharing
- Gallery
- Camera
- Location
- Cancel

## Main features of the iPhone application include

TELEPHONY
- GSM mode or softphone mode (calls through the internet (VoIP))
- Automatic availability detector (engaged, available, etc.)
- Professional voicemail notification
- Call management: re-dial, transfer, three-way conference, call forwarding to professional voicemail or a separate line
- Search in both your company directory and personal contact list
- Detailed call history

COLLABORATION
- Contact management
- Instant messaging and automatic presence identifier
- Audio/video call with other users
- Bubbles (groups) with users both within and outside your organization, (chat, file sharing, etc.)
- Video conferencing with up to 50 participants
- Phone conferencing with up to 100 participants
- Screen sharing in conference (audio and video)
- Access to internal or external updates through the Channel feature. Include both text and multimedia (links, images, files, videos)
- Personal cloud-file storage up to 20GB
- GPS location sharing (Google Maps)

Audio call

Video call

Work phone : +44...

Work mobile : 0123456789

Personal phone : 0987654321

Cancel

Make an Internet audio/video call (this type of call does not use your company's telephony system)

**Make a call to a contacts work or personal number** (using your company's telephony system)

Bubbles & Web Conferencing

- Create and operate Bubbles (working groups) with both internal and external guests.
- At any time, you can launch a video-web conference with all the participants in your bubble.

- Web conferencing makes it easy to mix **voice**, **video** and **screen sharing** for all participants.
- Participants can join a conference via their web browser, mobile (iOS & Android), Rainbow client (Windows or Mac), or through our *Rainbow Room* solution.
- Select and view the video of any participant, share your screen or let them share.
